VENKATA GOPI PERUMALLA

DevOps Engineer | AWS Cloud & Kubernetes | 4+ Years Experience
Dublin, Ireland | +353 899460440 | gopiperumalla14@gmail.com | LinkedIn | GitHub | Portfolio
Stamp 1G – full right to work in Ireland

PROFESSIONAL SUMMARY

DevOps Engineer with 4+ years designing, automating and running cloud infrastructure on AWS. Builds and operates Kubernetes (Amazon EKS) platforms and CI/CD pipelines for containerised applications, and provisions environments as code with Terraform, including VPC networking, IAM and security groups. Brings enterprise client delivery experience for Capgemini. Works closely with software engineers to make releases faster and more reliable, with strong experience in production support, observability with Prometheus and Grafana, and automation with Python and Bash. AWS Certified Solutions Architect – Associate, with an MBA in Project Management from DBS Business School, Dublin.

TECHNICAL SKILLS

- **Cloud (AWS):** EC2, EKS, ECS, ECR, Lambda, S3, EBS, EFS, RDS, IAM, Elastic Load Balancing, Auto Scaling, CloudFront, SNS, CloudWatch, CloudTrail, Secrets Manager
- **Cloud Networking:** VPC, subnets, security groups, load balancers, AWS Direct Connect, Kubernetes network policies, TLS
- **Containers & Orchestration:** Docker, Kubernetes, Amazon EKS, Helm, kubectl, YAML manifests, cluster and control-plane upgrades, node patching
- **Infrastructure as Code:** Terraform (reusable modules, remote state), AWS CloudFormation, Ansible
- **CI/CD & GitOps:** Jenkins (Pipeline, Multibranch, Groovy), GitHub Actions, Argo CD, Git, GitHub, Maven, SonarQube, JFrog Artifactory, branching strategies
- **Monitoring & Observability:** Prometheus, Grafana, Loki, Amazon CloudWatch, ELK Stack, SLOs, alerting rules and dashboards
- **Security & Access Control:** IAM roles and policies, Kubernetes RBAC, network policies, TLS, Jenkins security, image and secret scanning (Trivy, Gitleaks)
- **Scripting & Automation:** Python, Bash/Shell, AWS Lambda
- **Operating Systems & Servers:** Linux (Ubuntu), Windows, Nginx, Apache Tomcat, IBM WebSphere
- **Production Support:** Incident response, troubleshooting, root-cause analysis, disaster recovery and rollback planning, Agile, Jira

PROFESSIONAL EXPERIENCE

Sales Assistant

Lenehan's Hardware | Capel Street, Dublin | Apr 2025 – Present

- Help customers diagnose problems and find the right solution across a 16,000+ product range, while handling sales, deliveries and stock control in a busy city-centre store.

Senior DevOps Engineer

Cognizant Technology Solutions | Hyderabad, India | Jun 2023 – Aug 2024

- Operated production Amazon EKS clusters, carrying out Kubernetes version upgrades and node patching with minimal disruption to running services.
- Secured cluster and cloud access with Kubernetes RBAC, network policies, IAM roles and TLS.
- Packaged applications as Helm charts and managed their releases to EKS, keeping deployments consistent across environments.
- Monitored platform health with Prometheus, Grafana and Amazon CloudWatch, built alerting rules and dashboards, and led troubleshooting and root-cause analysis for production incidents.
- Managed server configuration with Ansible playbooks and scripted repetitive platform tasks in Python.

Senior Software Engineer – DevOps

Sevya IT Pvt Ltd | Hyderabad, India | Sep 2022 – Jun 2023

- Built Jenkins Pipeline and Multibranch jobs as code in Groovy that compiled with Maven, ran SonarQube quality gates, built Docker images and deployed them to Kubernetes on AWS.
- Administered Jenkins on Linux, managing plugins, credentials and security for development teams.
- Wrote reusable Terraform modules with remote state for EKS clusters, VPCs, subnets, security groups and Auto Scaling groups, cutting manual effort for environment builds.
- Provisioned IAM roles, S3 policies and RDS snapshots with AWS CloudFormation, and integrated S3 and IAM with EKS clusters.

- Agreed Git branching, merging and tagging strategy with development teams and resolved merge conflicts to keep releases moving.

Software Engineer

Capgemini | Hyderabad, India | Mar 2020 – Sep 2022

- Deployed applications to Apache Tomcat and IBM WebSphere through Jenkins, publishing versioned build artefacts to JFrog Artifactory.
- Scaled Jenkins with distributed build agents so multiple development teams could run builds in parallel.
- Automated EC2 start/stop scheduling with AWS Lambda and SNS to cut idle compute, and replaced manual Linux server tasks with Bash scripts.
- Supported production releases, diagnosing failed builds from Jenkins logs and joining major-incident bridge calls to restore service.
- Worked in Agile sprints, tracking deployments and operational tasks in Jira.

PROJECT

Microservices Platform on AWS EKS with GitOps

Oct 2026 | GitHub

Tech: AWS EKS, ECR, Terraform, GitHub Actions, Gitleaks, Trivy, Docker, Helm, Argo CD, External Secrets, AWS Secrets Manager, Prometheus, Grafana, Loki

- Built a VPC across two availability zones with private subnets for the nodes, an EKS cluster on Spot nodes and ECR registries, using reusable Terraform modules with S3 remote state.
- Built a GitHub Actions pipeline with unit tests, Gitleaks and Trivy. Trivy blocked a release over 3 HIGH CVEs, fixed by upgrading the dependencies rather than weakening the scan.
- Deployed three microservices with Helm and Argo CD (auto-sync, prune and self-heal), with database secrets pulled from AWS Secrets Manager through External Secrets and EKS Pod Identity.
- Set a 99.5% SLO with a multi-window burn-rate alert. After a deliberate bad config change caused about 25% errors, traced it with Grafana, Loki and Argo CD history, rolled back with git revert in about 2 minutes and wrote the RCA.
- Ran the platform under load (6,200+ orders processed), kept the cost to a few dollars with Spot nodes and a single NAT gateway, and tore down all 70 resources with Terraform the same day.

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate, Amazon Web Services | Credly

EDUCATION

MBA in Project Management (NFQ Level 9)

DBS Business School | Dublin, Ireland | 2024 – 2025

Bachelor of Engineering in Civil Engineering

Jawaharlal Nehru Technological University | Kakinada, India | 2020
